

HOW TO CHOOSE READING MATERIAL

Pick something **INTERESTING** & **COMPREHENSIBLE**. You should **enjoy** it and it should be relatively **easy** for you to read. It does not have to be utterly fascinating, and you do not have to understand every single word. It just has to **hold your interest** for a while, and it has to be something that you can **mostly understand**.

If you find you don't like it or it doesn't make sense to you, choose something else to read next time.

You can also **read the same thing again** if you want. That is a good option too.
