SPECIAL PERSON QUIZ

Your grade for this quiz is based on **communicating clearly** in the target language. The criteria are **comprehensibility** and **truthfulness**. If your answer is **understandable** and **factual**, it counts, with these exceptions:

- Only facts that the student has shared in class count. Other facts about students that you may know and descriptions of appearance will not count. You are showing that you have listened and interacted, not that you are just observing someone right now.
- Resumé-type details will not count, unless they are unusual. Writing about where a student lives, where she/he is from, age and grade normally are not unique enough now. We do not want students to just fill up space writing the exact same sentences over and over when we know so much more about one another.
- Write about yourself in the first person (I form) if you are one of the students on the quiz.

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____
